

A LETTER FROM THE CHAIRS

Welcome to Minicon 53! We are in a new hotel, with many new concom members! Please be gentle with us during this learning process, and help out wherever you can. Your feedback is always appreciated. There is a box for folks to submit suggestions at the registration desk, and there will be an online survey posted to social media. It is widely believed that no one actually reads this far into the "Letter From The Chairs," but we persevere. Special thanks should be given to Matt Strait and Aaron Vander Giessen, both of them did a lot of work that the chairs would have needed to do, and all without a vote on any major decisions. Are you still reading? We're excited to add new features to Minicon this year, our Rumpus Room has an outside door that allows us to have activities we couldn't have in previous years, and we've adding a "Sensory Friendly/Silent Meditation/Prayer" Room on the first floor in the Autumn Room. If you've read this far, please see Kevin Austin or Emily Stewart and collect a Ribbon of limited quantity if they're still available. Perhaps people do read this. We hope you enjoy Minicon and we hope you stick around for many years to come!

MINICON 53 CODE OF CONDUCT

Minn-stf acknowledges that interpersonal relationships in social settings are complex. Not everyone likes everyone else, and not everyone agrees with everyone else. Disagreements, friction, and vigorous debate are expected. However, interactions that become hostile or coercive do not have any part in a healthy social environment and Mnstf commits to addressing problem behaviors.

Harassment is difficult to define, and attempts at an exact definition are subject to rules-lawyering, so we won't attempt to do that. However, repeated unwelcome behaviors are mostly likely to be construed as harassment. If someone asks you not to touch them, not to talk to them, or not to refer to them in a way that they find objectionable, and you persist in doing so, you may be harassing them. Actions that are sufficiently egregious (assault, truly hateful language, and comparable actions) fall under this policy, even if only one occurrence has been noted. In the end, harassment is judged primarily by the person who feels harassed, and actions are more important than intent.

If you tell someone to stop something you see as harassing behavior and they don't, you may tell us. If you don't feel comfortable telling someone to stop harassing behaviour, you may also tell us. We want to make sure everyone is heard so that together we can make Minicon a healthy, fun, enjoyable experience for everyone.

HOW'S YOUR SQUEE?

Minicon is a place to get your squee on. It's a time for strange friends and friendly strangers, marvels and wonders, interesting conversations, fascinating objects, and lots of fun. Few things destroy fun faster than having someone not take "no" for an answer. Here's the thing: you have the right to say "no." No to a conversation, no to an activity, no to a beverage, no to anything that interferes with your own, personal squee. The ability to say yes to fun includes the ability to say no to not-fun. But sometimes...sometimes people don't respect your "no," and sometimes, you feel as if you can't say "no" directly to the person harshing your squee. In those cases, we will try to help.

If you need help with a problem where someone is violating our Code of Conduct (see opposite), or not taking your "no" for an answer, PLEASE feel free to call us at (612) 213-9620, and we will try to help. This phone is answered all day and most of the night. If we don't answer, leave a voice mail message, or text, and we will respond as soon as we can. We will work with you to find a solution that lets you go back to full-on squee.

Guest of Honor

LYDA MOREHOUSE

Bio written by Tanya Brody

Despite being born in California, Lyda Morehouse really comes from La Crosse, WI, where she grew up. She claims to be Californian, but we know she's really a midwesterner, like the rest of us.

She was raised Unitarian Universalist Secular Humanist (so non-Christian) but went to Catholic school from 4th to 6th grade. She says she used to receive her report card at the altar, refuse communion, then scurry back to her pew to check her grades for religion class. She got all As, which she attributes to Biblical stories being brand new to her, and therefore interesting.

Lyda is mildly dyslexic. Because of this, it took her until 6th grade to finish an entire book. That book was *The Hobbit* and it introduced a life-long love of science fiction and fantasy, which is why she chose it as her genre. She credits comic books for turning her into an avid reader.

"I used to play super heroes with my cousin," she says. "I was always Hawkeye to his Captain America, which I think makes better sense in the 1970s than it does in the current Marvel Cinematic Universe."

Lyda attended and graduated from Augsburg College (a Lutheran school), which is what originally brought her to the Twin Cities. When filling out their forms, she had to check "other" when asked about her religion because Unitarian wasn't an option.

Fortunately for us, Lyda liked Minneapolis enough that she stayed. She and her then partner, now wife, Shawn Rounds bought a house together in 1997, where they live with their son, Mason, and their cats.

Lyda dabbles in the visual arts, mostly fan art from her Anime obsession, *Bleach*. At one point in her life, she was also a cast member at the Minnesota Renaissance Festival.

Lyda writes science fiction under her own name (which she pronounces LIE-da, in case you were wondering - according to her, the easiest way to remember is "authors of fiction are always lying"). Her books include, *Sidhe Promised*, about a lesbian college student who ends up in fairytale Ireland. *Archangel Protocol*, *Fallen Host*, *Messiah Node*, *Apocalypse Array*, and *Resurrection Code*, which take place in a world where an interactive computer network is inhabited by AIs and angels. She has been nominated for several awards and has won the 2002 Shamus for Best Original Paperback, the 2002 Barnes & Noble Maiden Voyage, and received a special citation as a Philip K. Dick winner.

Not satisfied with just one genre, Lyda also writes paranormal romance under the name Tate Holloway. She got into vampires early on, partially by playing the RPG **Vampire: the Masquerade**. She also wrote some of her first "fic" on a vampire listserv. Her books include, *School for Wayward Demons and Misfit Witches Book 1: Song of Secrets*, *Precinct 13*, *The Vampire Princess of St. Paul* series, *Almost Everything*, *Almost Final Curtain*, and *Almost to Die For*, and the Garnet Lacey novels, *Honeymoon of the Dead*, *Dead if I Do*, *Romancing the Dead*, *Many Bloody Returns*, *Dead Sexy*, and *Tall Dark & Dead*.

"I love the transportive quality of writing. Writing is how I continued to play pretend after it was no longer socially appropriate to do so."

Lyda is currently writing her latest *Precinct 13* novel, *Unjust Cause* as a Serialized Novel, which you can find on the social platform, Wattpad.

When she's not writing about witches, vampires or angels taking over an interactive computer network implanted into humans, she works in the Circulation department at the Ramsey County Library.

Featured Artist

JON ARFSTROM (1928-2015)

Bio written by Richard Snyder
(sourced and cross-checked
from Wikipedia.org, PulpArtists.
com, StarTribune.com, and
HaffnerPress.com)

Our Featured Artist is Jon Arfstrom. Born in Superior, Wisconsin in 1928 to Swedish immigrants. His father was a housepainter and calligrapher and his mother was a proud housewife.

Jon moved with his mother and four of his five siblings to Minneapolis in 1936, when his parents separated where he attended and graduated from public school. As a teenager, he spent several summers having adventures in Chicago with his older half-brother, Ralph "Bud" Modene who was a commercial artist. He entered the work force after 10th grade in 1944 where he worked on excursion ships and freighters travelling the Great Lakes.

Marrying his wife, Norma J. (nee Siegford) a year later at 16 (she was 15), they returned to Minneapolis and eventually raised 4 children: Gayle, Tory, Daryl, and Gary. He took art classes at the Minneapolis School of Art at night while working days as a clerk at Minnesota Amusement Company.

By 1949, at the ripe old age of 20, he was illustrating book covers for fantasy publications while working as a staff artist at the Gamble-Skogmo advertising agency and then the Brown and Bigelow Calendar Company. During the 50's, he went on to paint covers and illustrations for internationally known pulp magazines such as *Weird Tales*, *Mystic Magazine*, *Other Worlds Science Stories* and *Spaceway*, amongst others.

A Stoker Award winner in 1994 for "Superior Achievement in a Fiction Collection", his influential style has a wide ranging appeal and his works range from moody gothic landscapes to exciting pulp adventure covers to colorful Surrealism and abstract fantasy illustrations.

Even though he retired after 40 years from Brown and Bigelow, he never stopped creating art. His work was featured in magazines throughout the last 40 years such as *Odyssey*, *Scientifantasy*, and *The Fanscient*. He also painted for leisure, religious publications and commercial works.

Sadly, Jon is a posthumous guest-of-honor having, passed away in his home at the age of 87 in 2015. His daughter will be making presentations of her father's work as well as providing some of his best works for exhibition in the art show.

Some of his work can be seen at

We will be holding a memorial for Dave at 5:30pm on Easter Sunday, in the Park 2 room. This gathering will be open to everyone — no Minicon membership required.

MUSIC

The **Orchard Room** is your musical headquarters at Minicon's new home in the Park Place DoubleTree. We hope you'll join us to enjoy concerts from returning favorites and new-to-Minicon performers alike, as well as a few special events geared toward our youngest members.

For those who like their music participatory, **Terrace 1** will host **open music circles** on Friday and Saturday night beginning at 8:30 p.m. We welcome all Minicon members to join in singing, playing, jamming, filking, listening, and making a joyful noise until the last musician drops. Performers of all styles, genres, and experience levels are encouraged to participate. Should the circle become unwieldy, overflow space will be available in the bar when it opens, and in the Orchard Room after the last concert of the night has concluded.

FRIDAY MUSIC

4:00 - 5:00

INSTRUMENT PETTING ZOO (KIDS 12 AND UNDER)

Kids: Try your hand at strumming a ukulele, making spacey sounds on a synthesizer, banging a drum, or exploring many other methods of music-making. Grown-ups: Please feel free to bring any instruments you would like to demonstrate and share with Minicon's younger members!

5:30 - 6:30

THE LEPRECHAUN PIRATES

The Leprechaun Pirates have been making musical waves for years now, and every year their music gets a little faster and louder. The lads are regular performers at the Minnesota Renaissance Festival. This year they are embarking on a new magical musical adventure involving electricity for their non-festival shows, playing their original and punked-out traditional tunes.

8:30 - 9:30

RIVERFOLK

Riverfolk is the folk duo of Becca Leathers and Chas Somdahl (Minicon 46 Musician GoH). Their beautiful harmonies, memorable songs, and intricate guitar work have graced many a Minicon stage in years past. Join them for musical magic with help from numerous special mystery guests!

10:00 - 11:00

ADAM STEMPLER

Adam Stemple was the Minicon 50 Musician GoH and has been a mainstay in the Minneapolis SF and F community for 30 years. He has played music and produced projects for authors Neil Gaiman, Jane Yolen, Emma Bull, and Steven Brust. He is maybe not as funny as he thinks he is.

11:30 - 12:30

GERNSBACK CONTINUUM

Remember what the future used to sound like? When rock stars dressed in silver capes and sang about spacemen to the thunder of electric guitars? When soundtracks from Forbidden Planet to Blade Runner described the future with cool synthesized ambience? The Gernsback Continuum makes the 21st century sound like the 20th century imagined it would sound.

SATURDAY MUSIC

11:30 - 12:30

Also, volunteers are always appreciated for tearing down and moving out!

Also see page 9 for information on a memorial for Baron Dave Romm taking place Sunday evening at the hotel

WHAT IS MNSTF?

It's the Minnesota Science Fiction Society, abbreviated MnStf, MinnSTF, MN-STF, and other variants. It's the non-profit group that brings you Minicon. Each year, the MNStf board of directors approves the next Minicon chairperson and looks after the continuing needs of the convention. Minstf does more than just Minicon. It also runs a small convention each year in the fall, mainly for the purpose of having something like Minicon, but without all that pesky programming and stress. Ours changes name frequently. Besides running conventions, Minnstf's major activity is hosting social events through the year (officially known as "meetings"). Those events include a summer picnic, a pool party, and social events, often at members' homes. Meeting locations are published in MnstF's monthly newsletter Einblatt, Twitter and Facebook. The Einblatt is available at mnstf.org/einblatt. You can also sign up for our events and discussion mailing lists at mnstf.org. How do you become a member of MnStf? It's easy! If you ever attend a meeting, you're a member. If you sign in at seven meetings in a year, you become a voting member for that year and can help choose the Minn-Stf board.

DEAD DOG PARTY

The Dead Dog party is at the hotel Sunday night after teardown is complete. This is still part of the con! All are welcome! Bar, Consuite, and common areas.

DESSICATED DODO PARTY

This is our second after party! We just can't stop. All Minicon members are welcome. Mon, Apr 2, 6PM. Irene & Scott Raun's, 3928 11th Ave S, Mpls. Dogs, smoking outside. FFI: 612-822-0451 realitychallenged@fireopal.org, sraun@fireopal.org

EINBLATT!

Einblatt! is the monthly events calendar of Minn-Stf. It attempts to inform people of conventions, meetings, and other fannish events taking place in or related to the Twin Cities fannish community. <http://mnstf.org/einblatt/>

THE MNSTF PICNIC

The summer Mnstf picnic will be Saturday, July 21, 2018, at Minnehaha Park, Picnic Area #2, Minneapolis (same place as the last several years). We start around noon, and continue until dark, perhaps 8pm. Snacks and beverages will be provided. There'll be a grill going throughout the day; bring your own grilling items. As is customary at MNstf "meetings", there will be game playing. Besides table and board games, expect to see outdoor games such as croquet, bocce ball and frisbee. We are right next to the horseshoe pit, so if you have a set of horseshoes and like to play, bring them. Dogs are welcome, but the park requires that they be kept on leash. The picnic area is between Nawadaha Blvd and Godfrey Pkwy.

CONVENTION COMMITTEE

The convention committee (or concom) are the people that organize and run the convention. Anybody can help out on the committee as long as you're willing to put in the work to put on a great convention. If you'd like to help, please email volunteers@minicon53.mnsthf.org.
